A Message From The Director (MET)

Dr. A. Imam
Director, MET

It brings to me, immense joy to extend a warm welcome to everyone at Millia Institute of Technology, Rambagh, Purnea . With a dream to fulfill the demand for quality technical education, the college was established in 2002 and become the first private engineering institution in Semanchal Region. Since then, it has evolved into a cherished alma mater for tens of thousands of proud alumni.

Allow me to share the story of how the concept of establishing educational institutions first took its root during my early days.

I was practicing as a Homeopathic Doctor when the idea of establishing educational institutions crossed my mind. During my childhood walks with my father, late Md Atique Imam, he often spoke about things which are established are meant to be destroyed normally within the span of three generations. His words resonated, inspired me to create something lasting. As a young boy, I harbored a desire to contribute something enduring to the world, something that would stand invincible across multiple generations. In pursuit of this aspiration, I embarked on a journey of exploration. I observed, visited various places, and, finally, an inspiration struck while touring the prestigious universities of India. I began my journey by visiting BHU, then moved on to AMU, explored Jamia, Delhi University, and the newly established JNU at that time. It struck me that even though the founders had passed away, and generations had changed, the spirit of those institutions and their legacies lived on. This endurance was carried forward by their alumni, not just across the country but throughout the world. I felt like I had found my answers, my dream, and my ambition. And so, the Millia Educational Trust was born in 1983, laying the foundation for all the educational institutions established under the Trust to date.

I got married to my beloved partner, Mrs Shabana Perween, in the same year. Responsibilities of family, my clinic, and a newly founded trust added to the challenges. Everything became manageable because of this remarkable woman. My hard work, her patience, and the stroke of good luck she brought with her made things easier. She stood beside me like a protective pillar. Though there were challenges, none were strong enough to deter me from reaching my heights.

I extend my heartfelt thanks to the Almighty and the people of Purnea and all the stakeholders in the process of my journey for placing their trust in me. It is their support and love that have transformed Millia Educational Trust into a family of 22+ institutions, including various schools and colleges. Importantly, we are not stopping here. Soon, we shall be establishing Millia University and Millia Institute of Medical Science in the coming years, aiming to provide the finest educational and healthcare facilities to the people of his region.

The journey has been challenging but equally adventurous. It is crucial to remember that your confidence, character, risk-taking abilities, and ability to take decisions at crunch situations and make them right when it matters the most will define who you are in your life.

You are bound to make mistakes in the process, but correcting errors and learning from them is an integral part of growth. With your continued support, I am confident that our future endeavors will be as successful as our past achievements. Here's to a journey of growth, resilience, and making a positive impact on the lives of others.

Regards
Dr. A. Imam

A Message From The Assistant Director (MET)

At Millia Institute of Technology, we are dedicated to fostering an environment where education and innovation go hand in hand. Our mission is to equip students with strong technical knowledge, critical thinking, and practical skills that prepare

Them to excel in today's dynamic technological landscape. We emphasize holistic development, research, and industry collaboration to nurture future-ready professionals who will contribute meaningfully to society. I warmly invite aspiring students to join us in this journey of learning, growth, and success. Together, lets build a brighter future through technology and education.

Best Of Luck!

Regards
Er. Aadil Imam

A Message From The Principal (MIT)

Welcome to Millia Institute of Technology (MIT) Rambagh, Purnea the first institution in the Seemanchal region, established in 2002. I feel proud enough, as MIT is one of the oldest colleges in the state of Bihar, with alumni who hold prestigious positions around the world.

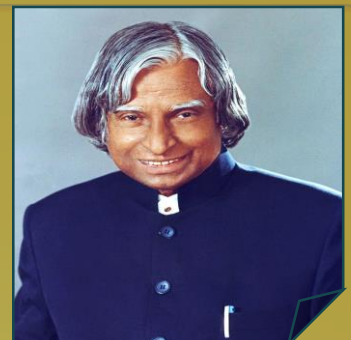

I am pleased to inform you that our institution is accredited by NAAC. We aim to provide our students with the quality education. In fact, the potential for education lies within each student we are here to encourage them to explore and enjoy the learning process. As the diversity of needs and globalization continue to grow, the demand for competitive skills is increasing day by day. The main purpose of MIT is to provide a platform where these needs can be met. We motivate students to develop leadership skills and encourage them to trust in themselves as they reach to great heights. I wish to remind you that each one of you has the power to shape your future. Embrace your uniqueness, pursue your passions, and never run away from challenges. Remember, growth often comes from stepping outside your comfort zone. Each of you holds incredible potential. Every day is an opportunity to learn, grow, and make a difference-not just in your own life, but in the lives of those around you.

Regards
